HARRIS
BUGG
STUDIO

Graduate Landscape Architect/Landscape Designer

Spring 2022

Background

We're on the look-out for an exceptional person who wants take the next step from university to life in practice in a friendly and creative studio. Your work will include researching and helping develop conceptual ideas, developing drawings, visuals and presentations, working on cost plans and technical specifications, assisting with planting (setting out, procurement and design) and general administration work to support the full life of the practice. You'll meet contractors, fabricators, other design professionals, clients and nurseries. And if you can demonstrate your ability, it's a fast track to designing your own projects and running them, or specialising in particular skills. Our studios are based in Exeter and London and you are welcome to decide between the two as your preferred location.

We understand that coming straight from university can be a leap so we will support you. You will also be given space to grow and develop; we don't micromanage so you will need to feel comfortable working both independently and as part of a team.

More about us

We're a values-driven, award-winning landscape design practice working on residential, commercial, botanic, historic and public gardens. Our current projects include residential projects in Cornwall, Dorset, the Isle of Skye, Kent and the Midlands; a rooftop forest in central London, a creative campus in Berlin, the new glasshouses at Gothenburg Botanic Gardens and the recently opened Kitchen Garden as part of RHS Garden Bridgewater.

Our values

The Common Good is our acclaimed studio values manifesto, and outlines our continued undertaking to parallel the creativity and quality of our work with a studio that is progressive, responsible and reciprocal. Central to this is a vision of connecting people and nature, designing and creating landscapes that respect the spirit of place, and being environmentally and ethically responsible in our business practices.

- **People** – Ours is a thriving, happy place to work, where our team are committed and passionate, knowing that they are in a space that also cares for their well-being and work-life balance. Full-timers work 4.5 day week and we include a range of benefits, such as sabbaticals, railcards, paid volunteering, flexible working locations, free HRT prescriptions, the right to disconnect, a generous professional development programme, and much more.
- **Place** – We make gardens and landscapes that are right for their place and their requirements. Our work respectfully weaves these together to produce beautiful, memorable and lasting spaces.
- **Planet** - We take the greatest of care in our responsibilities as landscape designers; sustainability and resilience is integrated throughout our work at every level.
